

**FOR IMMEDIATE RELEASE:**

**Galveston, TX, June 12, 2015 --WEST ISLE URGENT CARE Receives Accreditation from the Urgent Care Association of America**

WEST ISLE URGENT CARE, located in Galveston, TX, has received the Accredited Urgent Care designation, the highest level of distinction for urgent care centers. West Isle's center provides patients with walk-in, extended-hour medical attention with licensed doctors for a large scope of medical conditions, and they have met all of the Urgent Care Association of America's established standards and criteria for quality of patient care, safety, and scope of services.

*West Isle Urgent Care is the first and only urgent care center in the State of Texas to achieve this recognition for the year 2015.*

Urgent care is a convenient and viable option for medical conditions that cannot wait for a scheduled appointment with a primary care physician. West Isle accepts unscheduled, walk-in patients during all hours of operation.

When a medical condition cannot be handled by a patient's regular doctor – such as unexpected cuts, burns, sprains or fractures that do not require a visit to the emergency department, West Isle's urgent care center is equipped with x-ray, laboratory services and licensed doctors are always available to perform minor procedures like casting and suturing.

Urgent care fills the gap between primary care and hospital emergency rooms, offering increased convenience and cost savings.

With its accreditation, West Isle Urgent Care and the Urgent Care Association of America demonstrate their commitment toward providing patients with access to quality care of the highest level.

About West Isle: Patients are seen only by skilled doctors who provide up-to-date quality care -- for an emergency or not. In-network with all major insurance; patients are treated by licensed doctors with extensive ER and Urgent Care experience. *West Isle is Galveston's only Certified Category 1 Urgent Care Clinic.*
